Risk Disclosure

Granite Works, LLC. will be tearing out customer countertop materials to prepare for installation of new countertop materials.

Please be advised that you are assuming the risks involved during the tear out process.

When a countertop is installed, it is installed permanently. During the tear out process, the countertop undergoes a lot of stress. Sometimes this results in breaking, chipping and cracking. This is due to the material being stressed during the tear out process.

In addition, Granite Works, LLC. cannot be held responsible for any patchwork that may be required after the tear out of your old countertop and/or the installation of your new countertop (Cabinets, wallpaper, tile, spackle, trim, mirrors etc). We accept no responsibility for the integrity of the cabinets or any knee walls after removal of old counters.

By signing here under I agree to accept and assume all risks associated with the tear out and/or fabrication process.
